

OIL FILM REMOVER

• NCR-5 •

1. Product Description

This product is a highly efficient and professional cleaning and care solution for automotive glass. Utilizing a unique compound formula and gentle abrasive particles, it quickly decomposes and physically removes stubborn oil film, bug residue, water scale, oxidation, and other contaminants adhered to the glass surface. While effectively cleaning, it forms a super-hydrophilic protective layer on the glass.

2. Product Applications

Specially designed for deep cleaning and care of automotive front/rear windshields, side windows, and rearview mirrors. Effectively addresses issues caused by oil film buildup, such as wiper chatter, poor wiping, and nighttime glare. Suitable for routine maintenance and professional auto detailing processes.

3. Product Parameters

Parameter	Specification
Product Code	NCR-5
Color of Coating	Colorless to slightly transparent liquid
Active Ingredient	45%
pH	7- 8
Light Transmittance	Full-spectrum light transmittance > 95%
Application Methods	Apply evenly to the glass surface by brushing, wiping, or spraying
Drying Time	Surface drying in 10 minutes; full drying in 1 hours
Toxicity	Non-toxic, harmless, environmentally friendly
